## Message

I am immensely delighted that Green Life Medical College is going to publish the Year Book 2024. It is truly an admirable effort of the college to portray its extensive activities encompassing the whole Academic Year.

Medical education has undergone profound changes through the scientific methods of teaching and assessment. A great change also brought about in the new curriculum by making it more community-oriented. Aiming at the qualitative improvement in medical education, it is the earnest endeavor of this institute to produce medical graduates with sound knowledge, excellent skills and determination.

In Bangladesh health-sector faces a multitude of challenges affecting millions of people every day. One of the most pressing issue is the severe shortage of healthcare professionals. This results in prolonged waiting time, compromised quality of care and widespread patient dissatisfaction. It is the sincere commitment of this institute to implant higher level of morality, ethics, empathy and knowledge to the naïve minds of undergraduate medical students to make them efficient physician and good human being. The students of this institute give tireless effort in learning to achieve success and keeping on contributing to the health sector of our beloved motherland & abroad. We also try to involve our students in different social and cultural activities and various competitions. Our expert faculties are also involved in ongoing academic and research activities, trainings and workshops in order to improve their qualities and skills continually. All our activities and achievements are reflected in this Year Book.

I extend my heartfelt thanks and gratitude to the Principal and all faculty members of Green Life Medical College who let their expertise, insight and dedication in shaping the future of healthcare. I express my sincere thanks to the Year Book Committee for their utmost efforts. I implore the blessings of Almighty on all members of Green Life Medical College.

## Message

It is my privilege to celebrate the remarkable achievements of our Green Life Medical College family. The 2024 Yearbook beautifully reflects the collective efforts of our students, faculty, and staff who have worked tirelessly to foster a culture of collaboration, resilience, and excellence in all our endeavors.

This journey reflects our dedication to knowledge and compassion, shaping the healers and leaders of tomorrow. Let this yearbook inspire all as we strive for international standards.

Throughout the year, we regularly organized workshops on surgical skills, basic medical skills, and birth simulation training. This year, we took a significant step forward by introducing emergency management workshops that cover essential techniques such as intubation and CPR using mannequins. This innovation represents our commitment to being at the forefront of medical education.

My heartfelt appreciation goes to the faculties and staff for their hard work and commitment, to the Governing Body for their unwavering support, and to 'The Annual Report Committee' for their dedication to ensuring the regular and timely publication of our reports.

May we continue to strive for excellence and uphold the noble values of our institution.

With warm regards,

**Professor Dr. A.B.M. Bayezid Hossain**

## ***Brief History*** **of** **Green Life Medical College**

---

Green Life Medical College (GMC) is a prestigious institution that provides high quality medical education in Bangladesh. It was founded in 2009 with a mission to serve humanity through educational excellence and it has continuously evolved as a hub for learning and development. The college's journey started with 51 students in its inaugural batch in 2010, and now it annually enrolls 120 students, including a portion of seats reserved for international students.

### **Affiliations:**

Green Life Medical College is approved by the Ministry of Health and Family Welfare (MHFW), Government of Bangladesh, and its degree is recognized by the Bangladesh Medical and Dental Council (BMDC). The college is affiliated with the University of Dhaka.

The Bangladesh College of Physicians and Surgeons (BCPS) accredits its Post-graduation Honorary Training. Additionally, the college is listed in the World Directory of Medical Schools and the Educational Commission for Foreign Medical Graduates (ECFMG). It is also included in the Avicenna Directory, the World Federation for Medical Education (WFME), and the Foundation for Advancement of International Medical Education and Research (FAIMER).

### **Academic Building:**

Green Life Medical College features a modern 16-storied academic building covering 224,060 square feet and a hospital building spanning 250,000 square feet. Both equipped with central air conditioning and included 600 beds, some of which are available for free care. Additionally, the college owns 200 decimals of land in Purbachal New City for future expansion.

The college provides state-of-the-art facilities, including five multimedia-equipped lecture galleries with sound systems, 18 tutorial classrooms (including a multimedia tutorial room), dissection halls, museums, laboratories, a teaching OT, and a library with internet access and a digital library for advanced learning. The anatomy department's dissection hall, located on the 14th floor, spans 2,500 square feet. Each department is staffed with qualified and sufficient teachers, equipped with spacious, advanced facilities to ensure a blend of academic excellence and hands-on training.

### **Academic Faculty Members:**

The academic faculty of Green Life Medical College is comprised of 163 dedicated full-time members, each committed to excellence in teaching, research, and mentorship. The faculty is led by the esteemed National Professor Dr. Shahla Khatun, who serves as the Chairman, and Professor Dr. A.B.M. Bayezid Hossain, the Principal of the college.

Under their visionary leadership, along with the expertise of the faculty members, the college ensures a strong academic foundation and fosters an environment of innovation and learning. Together, they provide excellence in education and prepare students to succeed in the field of medicine.

## Continued Medical Education (CME)

Continuing Medical Education (CME) is an integral part of our academic culture, reflecting our commitment to the ongoing professional growth of students and faculty members. Every Wednesday, a central CME session, lead by expert faculty members, gathers all departments for interdisciplinary learning and discussion. In addition, each department holds independent CME sessions on specialized topics relevant to their fields.

We also host special CME events during Health Days, focusing on public health issues like "Dengue Fever in Children," "Mental Health in the Workplace," and "Diabetes Complications." The CME Committee coordinates these activities by collaborating with different departments.

## Departmental Highlights: A Central Presentation

## Research Cell

Research Cell is accountable to nurture research culture in the faculties by encouraging research in newly promising and challenging areas of medical sectors. Since the establishment, this cell is continuously making effort to guide the overall research practice quality and excellence both at national & international level. The current committee is chaired by Prof. Dr. Humaira Naushaba and the Member Secretary is Dr. Shamima Choudhury.

### Activities of Research Cell:

1. Research Cell has arranged a Workshop on “Research Methodology” from 5th to 7th May, 2024. Twenty two faculty members from different disciplines participated in the workshop. Different topics of research methodology and biostatistics were delivered in eight sessions.
2. Research Cell is also conducting CME presentation on 2nd Monday of a month (at an interval of two months) for the promotion of research.
3. Research Cell has arranged four (4) general meetings in the year 2024.
4. Research Cell is also planning to arrange a Research Olympiad in the year 2025.

## Integrated Teaching

Green Life Medical College uses an integrated teaching approach in its curriculum. This approach connects different subjects and gives a broader perspective of the medical field. Our integrated curriculum is designed to be both repetitive and progressive, enhancing the connections between disciplines and improving the retention of knowledge and development of clinical skills. The adoption of this approach reflects the college's commitment to preparing future physicians for the complexities of 21st-century medicine.

## Green Life's Humanitarian Drive

During the devastating floods of 2024, the students of Green Life Medical College showcased their remarkable dedication by actively participating in rescue operations and providing essential food supplies to the affected areas. The Green life Medical College and Hospital authority supported their efforts with a substantial contribution of a total of 12 lakh BDT to the Chief Adviser's Fund for flood relief. A dedicated medical team from Green Life Medical College, including Assistant Professor Dr. Elora Yasmin and Registrar Dr. Saima Yeasmin Eva from the Gynae and Obstetric department, along with Associate Professor Dr. Md. Saiful Islam from the Anesthesia department, visited the 50-bed Upazila Health Complex in Begumganj, Noakhali. They provided medical care, performed caesarean sections, and offered OPD services in the Gynae & Obs department.
